### **DETAILED ACTION**

This Supplementary Office Action takes precedence over the Office Action mailed March 1, 2002. The groups set forth below reflect the entry of the preliminary amendments filed February 7, 2001. It is noted that, in the preliminary amendments, applicant requested cancellation of claims 20-23 and entry of new claims 24-27. However, it is noted for the record that the application as originally filed contained claims 1-19 only. Therefore, the portion of the amendment that cancelled claims 20-23 has not been entered and new claims 24-27 have been renumbered 20-23.

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
    - I. Claims 1-4 and 10-17, drawn to a catalyst composition, classified in class 502, subclass 300+.
    - II. Claims 18-23, drawn to an exhaust gas purifying process, classified in class 423, subclass 235.
- 

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can

be used in a materially different process of use, such as a catalyst for hydrocarbon conversion processes.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Jeffrey Nelson on February 27, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must ~~include an election of the invention to be examined even though the requirement be~~ traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
